MOBIUS SP0.3& 0.5MM

Premium Series

It's A Powerhouse

GHPM-Mobius SP 0.3 & 0.5mm

It's A Powerhouse

A revolutionary siphon feed airbrush that works even under low air pressure, a true powerhouse for high accuracy, wide spraying, high-volume, high-efficiency airbrushing.

GHPM-Mobius SP 0.3 & 0.5mm

Works Under Low Pressure

Unlike other brands that require at least 20PSI, the Mobius SP operates with only 15PSI. This minimizes paint splash back, enhancing spray quality for finer results while reducing equipment demands and works well with mini air compressors.

GHPM-Mobius SP 0.3 & 0.5mm

New Spiral-Shaped MAC Nozzle

Expand the versatility of the Mobius-SP even further with the all new 0.5mm Spiral 'MAC' Nozzles. Mobius-SP achieves exceptional efficiency in large-area spraying, making the process faster and more efficient.*The 0.5mm needle & nozzle is fully compatible with any existing mobius airbrushes.

GHPM-Mobius SP 0.3 & 0.5mm **2x Needles 2x Caliber**

Mobius SP is calibrated to deliver the same level of precision as a gravity-fed 0.3mm airbrush with the 0.3mm setup while the 0.5mm caliber delivers powerful airflow and a wide spray pattern, achieving smooth, uniform atomization over broad surfaces.

GHPM-Mobius SP 0.3 & 0.5mm

Redesigned Main Lever

We've thickened the front of the lever and refined its curvature, increasing the contact area with the fingers for a more secure and comfortable fit. We also added a subtle step at the back of the main lever, fine-tuning the angle to enhance coordination between the index finger and thumb.

GHPM-Mobius SP 0.3 & 0.5mm

Metal-Capped Siphon Cup

The metal cover offers outstanding corrosion resistance. It has been polished and electroplated to harmonize beautifully with the elegant Mobius series body. The glass cup ensures easy cleaning with a longer lifespan while the metal connectors guarantee excellent long lasting air sealing with just a simple attachment.

GHPM-Mobius SP 0.3 & 0.5mm

Perfect Weight Distribution

One of the standout ergonomic improvements of the Mobius SP is the uniquely angled air valve design, which prevents hand interference with the siphon cup and allows for a smoother, more natural grip.

GHPM-Mobius SP 0.3 & 0.5mm

Anodized Aluminium Handle

To achieve an overall balance, we incorporated an anodized aluminum handle in Gaahleri's unique blue-purple hue. Together with the airbrush being lighter it also shifts the center of gravity forward, giving the GHPM-Mobius SP a more balanced and comfortable feel in hand, enhancing the overall spraying experience.

GHPM-Mobius SP 0.3 & 0.5mm Easy Color Switch

The Mobius SP allows users to simply swap out the paint bottle, instantly transitioning to a new color. Suitable for complex spraying tasks or artwork that requires quick color shifts, as it minimizes downtime and maintains momentum.

GHPM-Mobius SP 0.3 & 0.5mm

What's In The Box

- GHPM-Mobius SP Body • Detachable Paint Cup • 0.3mm Needle(Installed)
 - 0.3mm Nozzle(Installed) • 0.5mm Needle
- 0.5mm Nozzle • Extra O-Rings • Instructional manual.

GHPM-Mobius SP 0.3 & 0.5mm

Atomization Effect

The Mobius SP is a high performance siphon-feed airbrush designed for extended spraying sessions. With consistent atomization, smooth control, and versatile nozzle options, it excels in large-area coverage, custom artwork, and professional applications.
