It's A Masterpiece

The Mobius model inherits and elevates Gaahleri's design DNA with its unique patent-pending features, delivering unparalleled performance for artists and professionals alike.

GHPM-Mobius 0.2mm

Spiral-Shaped MAC Nozzles

Inspired by the spiral shape of the tangent function, this Spiral Micro Air Channel Nozzle design ensures uniform and stable airflow, adeptly handling fine lines and low-pressure atomization. The extended nozzle length also enhances the ease of disassembly and assembly.

GHPM-Mobius 0.2mm

Functional Cutaway Handle

The patent-pending cutaway provides visual feedback of the working airbrush. In contrast, the rear Mobius ring-shaped cutaway, featuring a through spiral design element, enables direct customization of the trigger spring tension, helping users achieve their most comfortable handling experience.

GHPM-Mobius 0.2mm

Ultra-Mirror Level Cup

Utilizing advanced polishing technology, the inner cup goes beyond Gaahleri's standard mirror finish to achieve even smoother surfaces. This design minimizes paint accumulation, simplifies cleaning, and maximizes efficiency.

GHPM-Mobius 0.2mm

Precision Control Knob

For the first time in Gaahleri, the 0.2mm version is equipped with an air control knob featuring longer and finer control threads, providing a seamless tuning experience while ensuring precise airbrush control.

Only available on the 0.2mm version.

New Ergonomic Lever

An ergonomically enhanced main lever provides an unparalleled smooth control experience. It eliminates trigger stutter, significantly reducing fatigue during extended use.

GHPM-Mobius 0.2mm

Perfect Weight Distribution

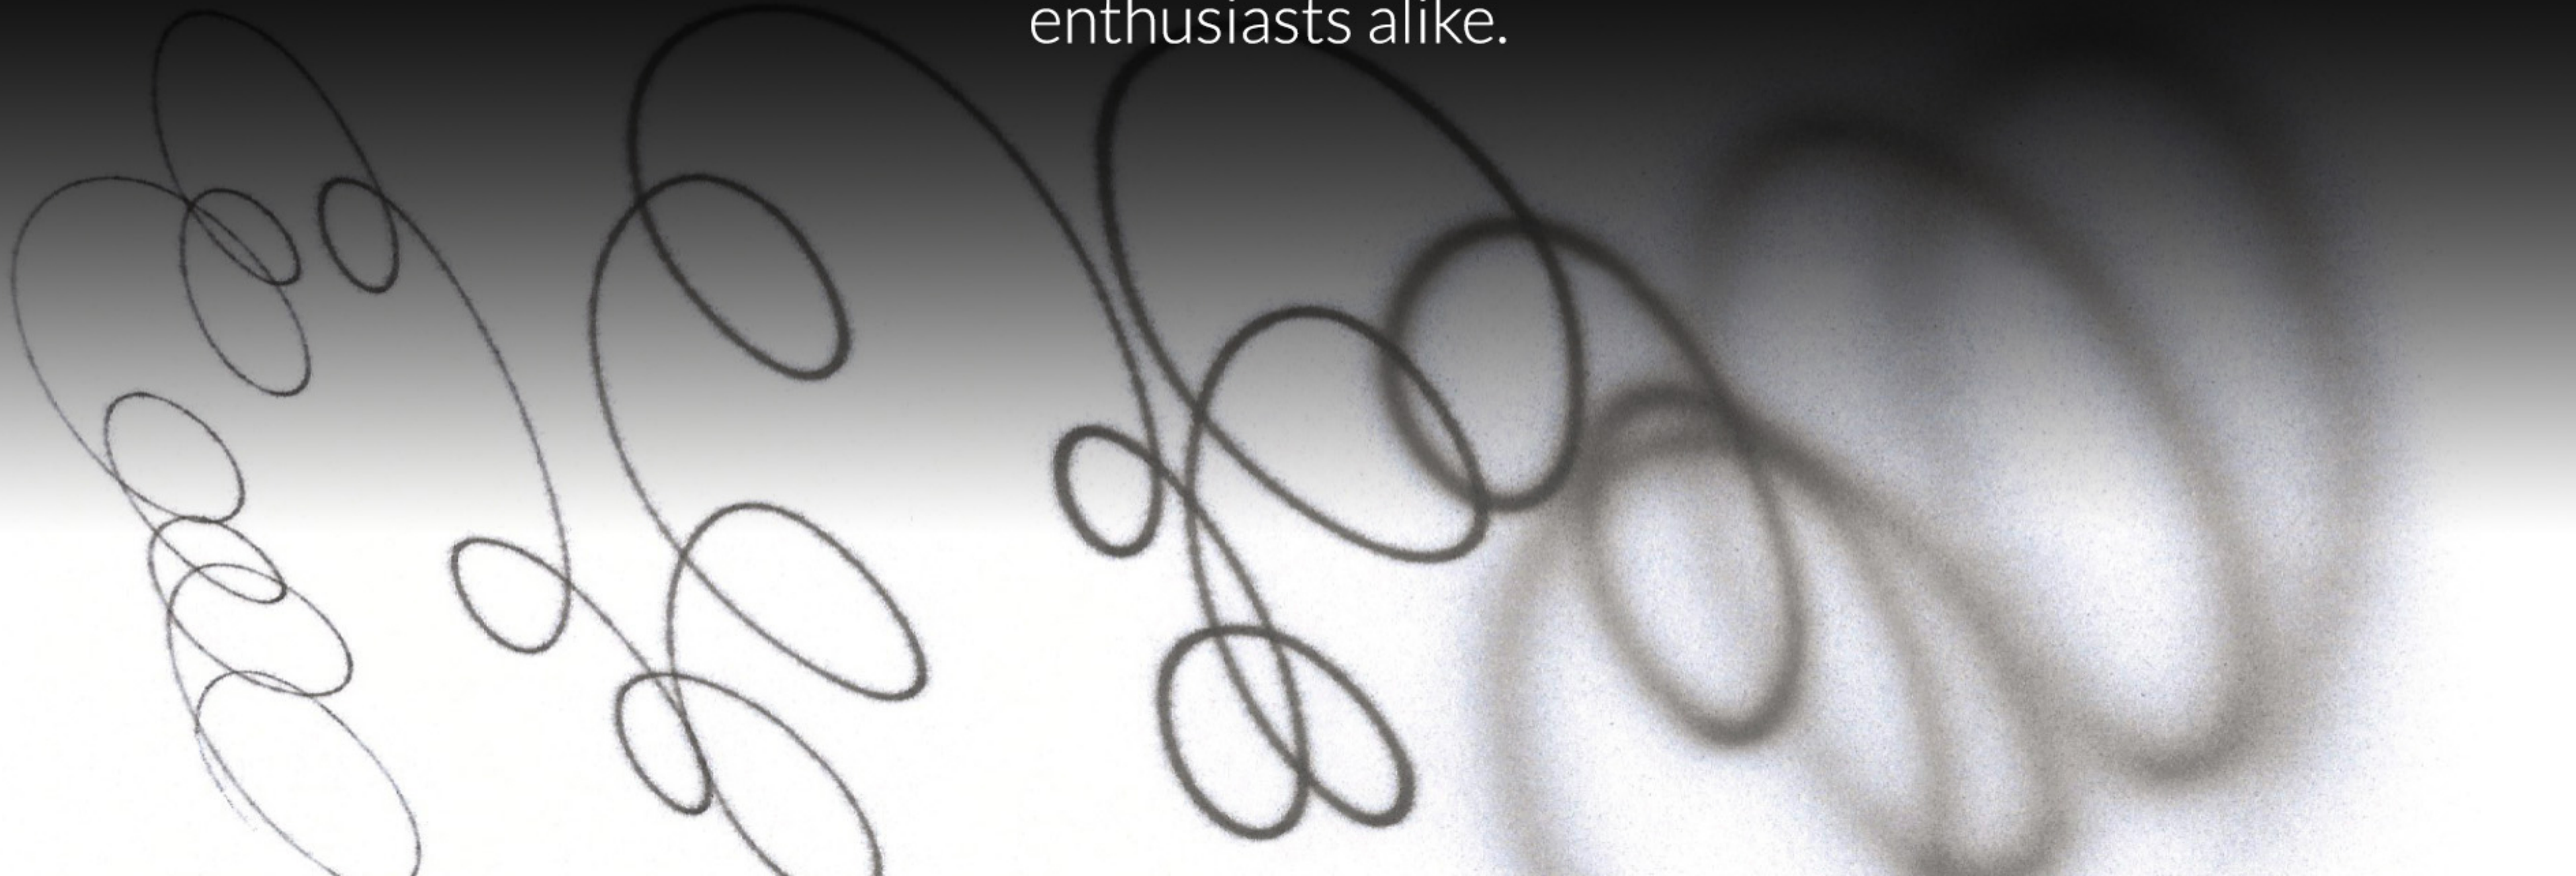

The Mobius series is engineered for optimal weight reduction, achieving a perfect balance in the airbrush's front-to-back weight distribution. The airbrush body's unique ergonomic design effectively minimizes hand fatigue during extended periods of precise control.

GHPM-Mobius 0.2mm

Spray Effect/Atomization

The Mobius 0.2 offers ultra-fine precision, smooth atomization, and effortless control. Perfect for detailed artwork, scale modeling, and fine-line applications, it delivers exceptional accuracy and consistency for professionals and enthusiasts alike.
