- The MAC Daddy of all airbrushes, the **Kustom Micron CM** is framed around the Iwata Custom Micron airbrush. The new Kustom Micron CM airbrush provides extreme control of ultra fine-line spray, silky-smooth atomization and ultimate paint-flow control with hand-tuned, hand-adjusted performance. Iwata Micron airbrushes are world-renown as the professional's choice for the utmost of fine line detail.
- A preferred airbrush for users who need ultimate control of fine-line work and medium background spraying, the **Kustom Hi-Line CH** boasts a MAC valve that supplies precise air control to the head of the airbrush for ultimate control.
- The workhorse of the Kustom line, the **Kustom Eclipse CS** features a large general-purpose nozzle/needle combination. Still maintaining fine-line control, the Kustom Eclipse CS creates wide background sprays with fine atomization and control. Designed to spray metallic, pearlescent and base coat paints.
- Triggering the passion of spray-gun users, the **Kustom Revolution TR** airbrush proves easy to use. The long trigger provides commanding control of the airbrush spray.

The **Custom Micron** series is for the elite professional who demands precise and accurate control of very detailed spraying. These airbrushes are the "best of the best," hand-tested by the world's leading airbrush technicians. Special machining processes along with the meticulous hand-fitting of the parts create an airbrush with superb atomization and incredible control of very detailed spraying. By removing the nozzle cap, these airbrushes will spray an entire range of stipple effects, from very fine to coarse textures.

series HP-M, HP-M1, HP-M2

The **Revolution MINI Series** features break through technology and top-of-the-line performance at great value. The **MINI Series** will become a significant tool for progressive Beauty Professional, Temporary Tattoo artist, RC enthusiasts and Model Builders.

Because of the great handling performance and short end handle of this **NEW series**, this airbrush is perfect.

And great for jobs that are too small for a regular Airbrush.

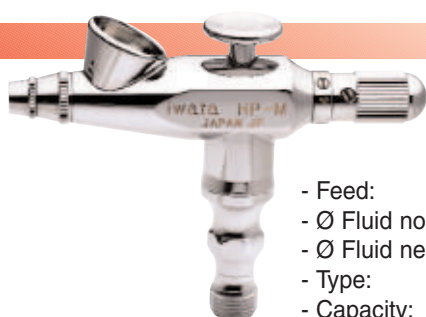

The **HP-M Revolution** are action gravity feed airbrushes with flow control at the back of airbrush by just twisting.

Also feature Teflon needle packing for use with solvent based paints.

The **MINI Series** is great for the temporary tattoo artist, beauty professional, Nail artists and model builders.
